University of Westminster
School of Computer Science & Engineering

Academic Year 2025/2026

SUBJECT TO EXTERNAL EXAMINER APPROVAL

6MARK027C Digital Marketing, social media and Web Analytics Assessment Specification (2025/26)	
Module leader	Aniqah Zeezan
Units	Coursework 1 – Individual - CW1
Weighting:	50%
Qualifying mark	30%
Description	Digital marketing and search engine optimisation
Covered Learning Outcomes	LO1 - Critically evaluate web marketing models and compare them with traditional models. LO2 - Demonstrate a good understanding of the use of SEO, email campaigns, and social media as effective marketing tools. LO3 - Employ SEO techniques to maximise the effectiveness of marketing on the web, and design email marketing campaigns.
Handed Out:	**9.00 am Tuesday 27th January 2026**
Due Dates	**1 pm Wednesday 11th March 2026**
Expected deliverables	An electronic file containing coursework answers (in either PDF or DOCX format) and a video demonstrating the microsite.
Method of Submission:	Electronic submission on BB is via a link provided in the assessment folder.
Type of Feedback and Due Date:	Written feedback on the submission will be provided within three weeks after submission (via the BB Rubric, including the mark and comments). All marks remain provisional until formally agreed by an Assessment Board.
BCS Criteria meeting in this assignment	2.1.1 & 2.1.2 Knowledge and understanding of facts, concepts, principles & theories 2.1.2 Use of such knowledge in modelling and design 2.2.2 Evaluate systems in terms of quality and trade-offs 2.2.4 Deploy tools effectively 2.3.2 Development of general transferable skills 3.1.1 Demonstrate a systematic understanding of the knowledge of the domain of their programme of study. 3.2.2 Defining problems, managing the design process, and evaluating outcomes 4.1.1 Knowledge and understanding of scientific and engineering principles

Assessment regulations

Refer to Part 3: Assessment regulations for taught courses of the guide for undergraduate students for a clarification of how you are assessed, penalties and late submissions, what constitutes plagiarism etc.

https://www.westminster.ac.uk/sites/default/public-files/general-documents/handbook-of-academic-regulations-2020.pdf

Penalty for Late Submission

If you submit your coursework late but within 24 hours or one working day of the specified deadline, 10 marks will be deducted from the final mark as a penalty for late submission, except for work which obtains a mark in the range of 40 – 49%, in which case the mark will be capped at the pass mark (40%). Suppose you submit your coursework more than 24 hours or more than one working day after the specified deadline. In that case, you will be given a zero mark for the work in question unless a claim of Mitigating Circumstances has been submitted and accepted as valid.

It is recognised that, on occasion, illness or a personal crisis can mean that you fail to submit work on time. In such cases, you must inform the Campus Office in writing on a mitigating circumstances form, giving the reason for your late or non-submission. You must provide relevant documentary evidence with the form. This information will be reported to the relevant Assessment Board, which will decide whether the mark of zero shall stand. For more detailed information regarding University Assessment Regulations, please refer to the following website: https://www.westminster.ac.uk/current-students/guides-and-policies/academic-matters/academic-regulations.

Coursework 1 – Digital marketing and search engine optimisation (SEO)

OVERVIEW

The coursework consists of two submissions:

- A report – developing a digital marketing strategy
- A video – Demonstration of your microsite

This coursework must be completed **INDIVIDUALLY**. The number of marks for each question is provided in the right-hand margin. The total number of marks available is 100.

This assessment carries **50%** of the total marks for this module.

COURSEWORK SUBMISSION

You must submit this coursework via Blackboard on or before **1 pm, Wednesday, 11th March 2026**.

Report Submission

Your report submission should be in PDF or Microsoft Word (.doc/.docx) format (File name: studentID_Report). The suggested word count for this report is **3,000 words (excluding tables and figures**).

The first page of your submission should include a front cover with your name, student ID, the module code, the title of this module, and a word count. Otherwise, your name and student ID should not appear anywhere else on your submission.

Part 1 – New digital marketing strategy

You are developing software to meet the customer's needs as part of your final-year project module. As **a new entrepreneur, you wish to sell this product** and are keen to develop an effective digital marketing strategy. You also serve as a marketing manager to market your product. Carry out the following tasks and design your digital marketing strategy.

I. Do the market segmentation and identify the target market [5 marks]
II. Draw and explain your company's digital marketing funnel and discuss how a potential customer (suspect) can be converted into a loyal customer. [10 marks]
III. For each stage of your company's digital marketing funnel, critically analyse the two most suitable digital marketing channels [10 marks]
IV. Critically evaluate the suitability of two digital marketing tools for each of the selected digital marketing channels of your company. [10 marks]

[35 Marks]

Part 2 – Search Engine Optimisation

You set up a microsite to promote your final-year product's new business.

I. Using Google Sites, set up a minimum 5-page microsite to market and sell your software. You must decide on the contents (text, images, audio, video, etc.), layout, attractiveness, and standards. Take a screenshot of each of the five pages as evidence that you have created and **provide a URL** to your newly created microsite.

[10 Marks]

II. Create a 5–10-minute video to pitch your product, demonstrating its key features, benefits, and convince potential customers to convert. **[10 Marks]**

III. Create a Google Form to capture email addresses of microsite visitors for email marketing purposes. Embed or link the form at the top of one page on your microsite and provide both a screenshot and the live link as evidence of implementation. **[5 Marks]**

IV. Carry out *keyword research* to identify potential sets of words and phrases that could be used to help optimise your microsite.

In your answer, you **MUST:**

a. Critically evaluate the keyword density analysis (KDA) tools and select one tool suitable for your company.
b. Conduct a keyword density analysis (KDA) of your existing content using your selected tool.
c. Identify sets of seed phrases related to your client.
d. Analyse and demonstrate the semantics, modifiers, and variations of your selected keywords, explaining their relevance to search intent and optimisation.
e. Summarise your findings using a keyword tree diagram.

[15 Marks]

V. Optimise **TWO** pages of your microsite using a subset of the keywords identified and provide detailed evidence of the process you have followed. In your answer, you **MUST**:

a. Explain how you developed each page's content around your chosen keyword and <u>include screenshots of each page before (original page) and after optimisation (improved page after optimisation)</u>, highlighting the changes you

have made (you must annotate the changes, what the change is, and the reason for the change).

[10 Marks]

VI. Explain how you implemented the Backlinks and internal links in your microsite (Provide evidence that they have been applied in the form of screenshots) and explain how they help to improve search engine ranking. **[5 Marks]**

VII. You are required to research and answer the following questions related to page ranking.

- Explain what page ranking is and why it is significant for your digital marketing.
- Critically evaluate TWO major algorithms/systems Google uses to rank web pages, discussing their effectiveness, limitations, and impact on search engine optimisation.
- Using your microsite as an example, explain how high-authority or well-linked web pages might influence AI-generated answers in search engines or chatbots.

[10 Marks]

Video Submission

As part of your assessment, you are required to submit a short video (5-10 minutes) demonstrating your microsite. Please adhere to the following guidelines:

- **Content**:

  The video should showcase the microsite you have developed, highlighting key functionalities and benefits.

  You must include a voice-over throughout the video that convinces your microsite visitors to buy your product. This is a marketing pitch.

- **Video Clarity**:

  While video editing skills will not be assessed, ensure that the video is well-structured and clear.

  Your face must be visible at all times in the video.

  Audio quality is crucial, so ensure your voice-over is clear and easy to understand, with no noise.

- **Format**:
- Suggested video formats: MP4, MKV
- If your video file exceeds 50MB, we recommend uploading it to a platform such as OneDrive or YouTube. If sharing via a link, ensure it is accessible to anyone who has it. Failure to provide access may result in a 0 mark for this component.

Marking Criteria	Mark Per Component
Question 1 - New digital marketing strategy	**35 marks**
Recommend a digital marketing strategy for your new software to attract customers and promote the business.	
I. Market Segmentation (5 marks)	
Identify the type of market segmentation	2
Identify and justify the target market	3
II. Draw and explain <u>your company's digital marketing funnel</u> and discuss how your potential customers (suspects) can be converted into loyal customers – 10 marks	2
Labelled diagram for your company	4
Explanation of each stage – definition & characteristics	4
Application to your company / FYP	
III. <u>For each stage of your company's digital marketing funnel</u>, critically analyse the two most suitable digital marketing channels – 10 marks	4
Identify two channels for each stage (definition, characteristics)	6
Justify the application to your company / FYP	
IV. Critically evaluate the suitability of <u>two digital marketing tools for each of the selected digital marketing channels</u> of your company - 10 marks	4
Identify two tools for each stage	6
Justify the application to your company / FYP final year project	

Question 2: Develop and microsite and apply Search Engine Optimisation	**65 marks**
I. Using Google Sites, setup an initial 5-page microsite for the product you develop to for marketing purposes. - Contents - Design - Marketing effectiveness - URL given and accessible.	 4 2 2 2 **[10 Marks]**
II. Create a 5–10-minute video to pitch your product, demonstrating its key features, benefits, and convince potential customers to convert. - Product understanding - Value preposition & benefits - Visual audio & video quality - Professionalism, presentation (persuasion) style, time management	 3 2 2 3 **[10 Marks]**
III. Using Google Forms, design a form to collect the email addresses of users of the microsite for email marketing purposes. Place a link to the form at the top of one of the pages on your microsite and provide a screenshot of the form and the link to show that they have been implemented. - Contents - Design - Link is added to a web page & accessible	 2 2 1 **[5 Marks]**
IV. Carry out *keyword research* to identify potential sets of words and phrases that could be used to help optimise your microsite. - Critically evaluate the keyword density analysis (KDA) tools and select one tool suitable for your company. - Conduct a keyword density analysis (KDA) of your existing content using the selected tool. - Identify sets of seed phrases related to your client. - Analyse and demonstrate the semantics, modifiers, and variations of your selected keywords, explaining their relevance to search intent and optimisation. - Summarise your findings using a keyword tree diagram.	 4 4 2 2 3 **[15 Marks]**

V.	Optimise **TWO** pages of your microsite using a subset of the keywords identified (in question IV) and provide detailed evidence of the process you have followed. In your answer, you **MUST**: - Explain how you improved each page's content around your chosen keyword and <u>include screenshots of each page before and after optimisation</u>, highlighting the changes you have made Each page (5 marks) - Keyword selection & relevance - Improvement (justify what and why improvement) - Before & after evidence annotation	1 2 2 **[10 Marks]**
VI.	Explain how you implemented the Backlinks and internal links in your microsite (Provide evidence that they have been applied in the form of screenshots), and explain how they help to improve search engine ranking - Evidence of backlinks & explanation of improvements - Evidence of internal links & explanation of improvements (.5 for evidence, 2 marks for explanation)	2.5 2.5 **[5 Marks]**
VII.	You are required to research and answer the following questions related to page ranking. - Explain what page ranking is and why it is significant for your digital marketing (2 marks). Page ranking definition Significance - Discuss TWO major algorithms/systems Google uses to rank web pages with their effectiveness, limitations, and impact on search engine optimisation. Identification of an algorithm and an explanation (2 marks each) - Using your microsite as an example, explain how high-authority or well-linked web pages might influence AI-generated answers in search engines or chatbots. Understanding or high-authority or well-linked web pages of the micro-site Explanation of the influence on AI-generated answers	1 1 4 2 2 **[10 Marks]**
